

Publication List - 1939-1966

(Arranged Chronologically by Year)

From "The Clayton Foundation Biochemical Institute – A Short History" – by Roger J. Williams

Edited by Donald R. Davis and Marvin L. Hackert, 2001

1. Snell, E. E., and R. J. Williams, Biotin as a Growth Factor for the Butyl Alcohol Producing Anaerobes, *J. Am. Chem. Soc.*, **61**, 3594 (1939).
2. Snell, E. E., R. E. Eakin, and R. J. Williams, A Quantitative Test for Biotin and Observations Regarding Its Occurrence and Properties, *J. Am. Chem. Soc.*, **62**, 175–8 (1940).
3. Williams, R. J., and R. T. Major, The Structure of Pantothenic Acid, *Science*, **91**, 246 (1940).
4. Eakin, R. E., W. A. McKinley, and R. J. Williams, Egg-White Injury in Chicks and Its Relationship to a Deficiency of Vitamin H (Biotin), *Science*, **92**, 224–5 (1940).
5. Mitchell, H. K., H. H. Weinstock, E. E. Snell, S. R. Stanbery, and R. J. Williams, Pantothenic Acid. V. Evidence for Structure of Non-beta-Alanine Portion, *J. Am. Chem. Soc.*, **62**, 1776–9 (1940).
6. Zschiesche, E., and H. K. Mitchell, Pantothenic and Hydroxypantothenic Acids in Animal Nutrition, *Proc. Soc. Expt. Biol. Med.*, **45**, 565 (1940).
7. Stanberry, S. R., E. E. Snell, and T. D. Spies. A Note on an Assay Method for Pantothenic Acid in Human Blood, *J. Biol. Chem.*, **135**, 353 (1940).
8. Williams, R. J., H. K. Mitchell, H. H. Weinstock, and E. E. Snell, Pantothenic Acid. VII. Partial and Total Synthesis Studies, *J. Am. Chem. Soc.*, **62**, 1784–5 (1940).
9. Mitchell, H. K., E. E. Snell, and R. J. Williams, Pantothenic Acid. IX. The Biological Activity of Hydroxypantothenic Acid, *J. Am. Chem. Soc.*, **62**, 1791–2 (1940).
10. Williams, R. J., Vitamin Study at The University of Texas, *Science*, **92**, 579 (1940).
11. Pennington, D., E. E. Snell, and R. J. Williams, An Assay Method for Pantothenic Acid, *J. Biol. Chem.*, **135**, 213–22 (1940).
12. Snell, E. E., D. E. Pennington, and R. J. Williams, The Effect of Diet on the Pantothenic Acid Content of Chick Tissue, *J. Biol. Chem.*, **133**, 559–65 (1940).
13. Spies, T. D., S. R. Stanberry, R. J. Williams, T. H. Jukes, and S. H. Babcock, Pantothenic Acid in Human Nutrition, *J. Am. Med. Assoc.*, **115**, 523–4 (1940).
14. Williams, R. J., R. E. Eakin, E. E. Snell, The Relationship of Inositol, Thiamin, Biotin, Pantothenic Acid and Vitamin B₆ to the Growth of Yeasts, *J. Am. Chem. Soc.*, **62**, 1204–7 (1940).
15. Eakin, R. E., E. E. Snell, and R. J. Williams, A Constituent of Raw Egg White Capable of Inactivating Biotin in Vitro, *J. Biol. Chem.*, **136**, 801–2 (1940).
16. Mitchell, H. K., and R. J. Williams, The Importance of Amino-Acids as Yeast Nutrients, *Biochem. J.*, **34**, 1532–5 (1940).
17. Williams, R. J., Growth-Promoting Nutrilites for Yeasts, *Biol. Rev.*, **16**, 49–80 (1941).
18. Williams, R. J., The Importance of Microorganisms in Vitamin Research, *Science*, **93**, 412–4 (1941).
19. Eakin, R. E., E. E. Snell, and R. J. Williams, The Concentration and Assay of Avidin, The Injury-Producing Protein in Raw Egg White, *J. Biol. Chem.*, **140**, 535–43 (1941).
20. Gyorgy, P., C. S. Rose, R. E. Eakin, E. E. Snell, and R. J. Williams, Egg-White Injury as the Result of Nonabsorption or Inactivation of Biotin, *Science*, **93**, 477–8 (1941).
21. Mitchell, H. K., E. E. Snell, and R. J. Williams, The Concentration of "Folic Acid", *J. Am. Chem. Soc.*, **63**, 2284 (1941).
22. Williams, R. J., Pantothenic Acid, *Enzymologia*, **IX**, 387–94 (1941).

23. Williams, R. J., Pantothen, *Science*, **94**, 462–3 (1941).
24. Snell, E. E., and L. D. Wright, A Microbiological Method for the Determination of Nicotinic Acid, *J. Biol. Chem.*, **139**, 675 (1941).
25. Snell, E. E., Growth Inhibition by N-(α,γ -Dihydroxy- β,β -dimethylbutyryl)taurine and Its Reversal by Pantothenic Acid, *J. Biol. Chem.*, **141**, 121 (1941).
26. Snell, E. E., and E. Quarles, The Effect of Incubation on the Vitamin Content of Hen Eggs, *J. Nutr.*, **22**, 483 (1941).
27. Taylor, A., J. Thacker, and D. E. Pennington, The Effect of Increased Pantothenic Acid in the Egg on the Development of the Chick Embryo, *Science*, **94**, 542 (1941).

Biochemical Institute Studies I—Studies on the Vitamin Content of Tissues I, Univ. Texas Publ., 4137, (1941).

28. Williams, R. J., Introduction, 7–9.
29. Snell, E. E., and F. M. Strong, Assay Method for Riboflavin, 11–13.
30. Pennington, D. E., E. E. Snell, H. K. Mitchell, J. R. McMahan, and R. J. Williams, Assay Method for Pantothenic Acid, 14–17.
31. Snell, E. E., R. E. Eakin, and R. J. Williams, Assay Method for Biotin, 18–21.
32. Snell, E. E., and L. D. Wright, Assay Method for Nicotinic Acid, 22–23.
33. Williams, R. J., R. E. Eakin, and J. R. McMahan, Assay Method for Pyridoxin, 24–6.
34. Williams, R. J., A. K. Stout, H. K. Mitchell, and J. R. McMahan, Assay Method for Inositol, 27–30.
35. Williams, R. J., J. R. McMahan, and R. E. Eakin, Assay Method for Thiamin, 31–5.
36. Mitchell, H. K., and E. E. Snell, Assay Method for “Folic Acid”, 36–37.
37. Wright, L. D., J. R. McMahan, V. H. Cheldelin, A. Taylor, E. E. Snell, and R. J. Williams, The “B Vitamins” in Normal Tissues (Autolysates), 38–60.
38. Williams, R. J., A. Taylor, and V. H. Cheldelin, Changes in “B Vitamin” Content of Tissues During Development, 61–66.
39. Taylor, A., H. K. Mitchell, and M. A. Pollack, Modification of “B Vitamin” Content During Embryological Development, 67–80.

40. Thompson, R. C., R. E. Eakin, and R. J. Williams, The Extraction of Biotin from Tissues, *Science*, **94**, 589–90 (1941).
41. Snell, E. E., and H. K. Mitchell, Purines and Pyrimidine Bases as Growth Substances for Lactic Acid Bacteria, *Proc. Natl. Acad. Sci.*, **27**, 1 (1941).
42. Snell, E. E., E. Aline, J. R. Couch, and P. B. Pearson, The Effect of Diet on the Pantothenic Acid Content of Eggs, *J. Nutr.*, **21**, 201 (1941).
43. Snell, E. E., A Specific Growth Inhibition Reversed by Pantothenic Acid, *J. Biol. Chem.*, **139**, 975 (1941).
44. Williams, R. J., *An Introduction to Organic Chemistry*, (Book) 1927, 2nd ed. 1931, 3rd ed. 1935, 4th ed. 1941, 5th ed. (with L. F. Hatch) 1948, D. Van Nostrand Co., Inc., New York.
45. Pennington, D. E., E. E. Snell, and R. E. Eakin, Crystalline Avidin, *J. Am. Chem. Soc.*, **64**, 469 (1942).
46. Taylor, A., and M. A. Pollack, Hemoglobin Level and Tumor Growth, *Cancer Res.*, **2**, 223 (1942).
47. Pollack, M. A., and M. Lindner, Glutamine and Glutamic Acid as Growth Factors for Lactic Acid Bacteria, *J. Biol. Chem.*, **143**, 272 (1942).

49. Eakin, R. E., and E. A. Eakin, A Biosynthesis of Biotin, *Science*, **96**, 187 (1942).
50. Snell, E. E., and H. K. Mitchell, Some Sulfanilamide Antagonists as Growth Factors for Lactic Acid Bacteria, *Arch. Biochem.*, **1**, 93 (1942).
51. Taylor, A., J. Thacker, and D. E. Pennington, Growth of Cancer Tissue in the Yolk Sac of the Chick Embryo, *Science*, **96**, 342 (1942).
